Paul West, Keith Brewer : Brewer Twins: Double Take before purchasing it in order to gage whether or not it would be worth my time, and all praised Brewer Twins: Double Take:

The text is lacking, and skips anything in depth about these twin dudes. The pictures could be so much better. They really skipped over the Joe Magazine affair of their lives. Too bad, as that was the best of the Brewer boys as far as I am concerned. It was real, and heartfelt - this book is not.

This bold, graphic biography chronicles their success story, featuring photographs by fashion's preeminent style-makers-- from Steven Meisel and Patrick Demarchelier to Blake Little and Peggy Sirota-- and showcasing the Brewers' appearances in top magazines, campaigns, and shows, from Esquire, Vogue, and Sassy, to Yves Saint Laurent and Calvin Klein.
