Larry Harris : Bridge Director's Companion before purchasing it in order to gage whether or not it would be worth my time, and all praised Bridge Director's Companion:

12 of 13 people found the following review helpful. Don't buy this editionBy Larry R. HarrisRip-off of the century. You can buy a USED copy from one of three sellers. Prices vary from \$47 through \$102. What you are buying is the 4th edition. Talk about being out of date! The 5th edition was printed in late 2007. It currently retails for \$24.95. Among other things, it has alert procedure updates...a complete restructuring of movements when hand records are used...ACBLscore handling of many common tasks, etc. In short, massive changes were made. The 5th edition does not contain the two major changes made to the Laws that were implemented by the ACBL in Sept. 2008. Both of these changes are handled via an errata that is included if you happen to purchase from Baron Barclay Bridge Supplies. All copies are brand new. As far as the three sellers listed are concerned...one has to wonder how they can sleep at night.
