Caroline Sydnor : Bridge Made Easy Book 4: How to Set Your Opponents before purchasing it in order to gage whether or not it would be worth my time, and all praised Bridge Made Easy Book 4: How to Set Your Opponents:

1 of 1 people found the following review helpful. Bridge Made Easy - How to Set Your OpponentsBy Joe V.This book, volume 4 of a series of 4 books, is a good book for low intermediates or intermediates to improve their defensive play. I read it after reading Introduction to Defender's Play by Edwin Kantar and Defense in the 21st Century by Audrey Grant (two excellent books also) and found it to be a good read after those two books. Caroline is excellent at laying out numerous examples to explain the strategy behind the various principles of opening leads, second and third hand play, signals, discards, counting, and lead directing doubles. Each chapter includes "drills" to allow self-testing so the reader can tell how well she absorbed the lessons. The "solutions" to the drills explain why the correct solutions are best and why other choices are not so good. After the drills, each chapter includes four hands explaining in detail how the hands can be played and the consequences of the various directions of play. This will be on my shelf as a reference to go to as a refresher for defensive play. Well worth the low price.0 of 0 people found the following review helpful. Caroline Sydnor Bridge Books are greatBy Dana DapolitoThis series of bridge books is very comprehensive but presented in an understandable way. Some of the conventions are a little dated but that is easily overlooked, the concepts are sound. There are sets of coded cards that can be used to illustrate concepts. Definitely a superior bridge book.0 of 0 people found the following review helpful. Even A Goren WANNABE can benefit from this bookBy George MouzakisI'm a bridge novice but learned things from even the first pages I could use effectively

te next time I sat at a bridge table. Clear, focused and full of ammo to use on opponents.

Ten lessons on elementary defense. Leads, signals (attitude, count and suit preference), discards, second hand plays, counting, defensive tricks, and lead directing doubles.
