It is a great option for families with small children and older children as well...like ours. We also enjoy the Bird Bingo game. Even though they are both essentially the same game the wonderful artwork on the pieces engages all of us and makes the game fun. Quality materials and great craftsmanship. This game will last.2 of 2 people found the following review helpful. Great gameBy K. JonesThis was a Christmas gift for two grandchildren. They love it! We were visiting and played it MANY times with them. Made very well and should be long lasting! They loved trying to pronounce the names of the BUGS. They are ages 5 and 7. Six would play at a time which was just fine.0 of 0 people found the following review helpful. A great learning toolBy BosMAThis was a gift to a family with children aged 7 and 9. Both parents are scientists. The mom, a biologist, loved the explanations provided about each bug. The quality of the game materials is very good, and the artwork is marvelous. I hope more of these games will be forthcoming--maybe seashells, reptiles, or fish, for example? Definitely recommended.

This beautifully illustrated bingo game features 64 species of bugs from around the world. Identify all kinds of insects from the Giant Hawker Dragonfly to the Kissing Bug and the Orchid Bee to the Sacred Scarab mark them off on your

card and bingo! Bug Bingo brings a fun and educational twist to the traditional game as players learn the names and colorings of both favorite species like the Honey Bee and more exotic bugs like the Vampire Moth. Contains 64 superbly illustrated bug tokens, one board, 12 bingo cards and brightly colored counters for you to mark up your card, as well as a leaflet containing basic information and a few quirky traits for all of the bugs featured.
