**Ian Andersen : Burning The Tables in Las Vegas--Keys to Success in Blackjack and in Life** before purchasing it in order to gage whether or not it would be worth my time, and all praised Burning The Tables in Las Vegas--Keys to Success in Blackjack and in Life:

0 of 0 people found the following review helpful. Such a fun book! I've been in the gaming industry for ...By MTSuch a fun book! I've been in the gaming industry for years and this is the book that I give to friends and family who show interest in card counting. Easy to read and highly entertaining, it is quite a treat to see the inner workings of a card counter's mind.3 of 5 people found the following review helpful. Ian Andersen is the best!By JBThere are simply no other players quite as experienced as Ian Andersen. Even if you are not interested in counting cards, his experiences make for great stories and wonderful anecdotes. If you are serious about card-counting, then this book will pay for itself with the Ultimate Gambit. This book is perfect for your first trip to a casino as well as the experienced card-counter.7 of 7 people found the following review helpful. Possibly the greatest blackjack book ever writtenBy A CustomerAbsolutely awesome. Anderson understands the casino game very well. Just buy this book. That is all I can say.Contains excellent discussions of cover plays, psychology, high rollers and other keys to be a pro.Absolutley must reading.

In the mid-1970s, Ian Andersen wrote *Turning the Tables on Las Vegas*, the classic book on casino comportment. As the first book to broach the all-important consideration of how to get away with getting the money, *Turning* was the book that launched a thousand blackjack careers. After its publication, however, Andersen disappeared from the scene. Where did he go? The answer is spelled out in this long-awaited sequel, *Burning the Tables in Las Vegas--Keys to Success in Blackjack and in Life*. Since 1976, Andersen has been perfecting his personal program for success in blackjack, poker, and other of life's games. His technique combines elements of mathematics, psychology, and mental and physical well-being to create a never-before-disclosed approach to winning. *Burning the Tables in Las Vegas* addresses virtually every aspect of blackjack advantage play: game selection, longevity, tipping, employee relations, guises, disguises, false identification, credit, comps, risk, heat, dress, demeanor, and diet. Andersen also explains how emotions, such as guilt and anger, and skills, such as discipline and interpersonal competence, can affect your prospects for profit. Peppered with fascinating anecdotes and stories from Andersen's forays into the great casinos of the world, *Burning the Tables in Las Vegas* takes you on a vicarious journey into the rarefied realm of the high-stakes blackjack pro--and shows you what it takes to be one.
