Nick Snels : CalcuDoku 9x9 - Hard - Volume 10 - 276 Puzzles before purchasing it in order to gage whether or not it would be worth my time, and all praised CalcuDoku 9x9 - Hard - Volume 10 - 276 Puzzles:

2 of 2 people found the following review helpful. Poor design and layout prevent this from being an excellent puzzle book. By Michael M these puzzles are very difficult which is the only reason i'm not giving this book just 1 star. the puzzles are crammed 2 to a page leaving almost no room for notes along the margins. poor design and layout have prevented this from truly being an excellent puzzle book. i suppose i could use an extra sheet of paper and make notes on that but the point of a puzzle book is to be able to pick it up and start working - not having to grab supplemental

note taking materials. /rant.
