Do not buyBy DaveI purchased this item under the pretense that I would be receiving a full guide including single player campaign, basic information and pretty much any guide would comprises of. Nope, what I received was a 12 page laminated standing description of the MP maps and that is ALL I received.0 of 0 people found the following review helpful. Awesome Book \* Matches Awesome GameBy Mark-e-MarkI bought the book to get the pop-up booklet that lets you see the maps while playing multi-player games. To be honest, I've not used them as much as I would like. I find reading them and studying them after I played the maps a few times gives me alot more help than just trying to figure out where I'm going while looking at these maps on a pop-up booklet. Pretty hard when people are always shooting at you too. The book has great illustrations and is in great detail. I'm pretty close to earning my PLATINUM trophy. Only 1 left to get! Hope this review was helpful and you add this guide to your collection!!0 of 0 people found the following review helpful.
