Although there is no copyright date, I am sure it was written in the 50's, before many of the current rules were in place; thus the strategies (and there aren't many) really dont apply. It was not inexpensive and was only 61 pages (large type). This book belongs in the history of games section.

Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.
