Gold : Cannabis Alchemy: The Art of Modern Hashmaking before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cannabis Alchemy: The Art of Modern Hashmaking:

3 of 3 people found the following review helpful. Just Smoke and mirrors. By Science Minded I am a chemist and I find this book to be not only very incomplete but more importantly misleading. It is a very short book done in large print that gives little or no helpful information. Almost half the book is taken with a not very useful Glossary and a collection of letters which do not provide any help with their purport. The book was made to look to the causal

observer or table of content browser to contain many very important and useful topics...that is deceptive to say the least. The section on Fractional Distillation, for instance, is quite short and gives nothing at all helpful to someone who might be wanting to do fractional distillation of their product.....all here is mirror and lights.If you just have to buy it then do so through , have a quick read and see if I am telling you the truth....then just send it back and get your money back. The book is pure Junk.0 of 0 people found the following review helpful. A fun early cannabis book.By jfreischuetzThis book as little information it that is useful for modern cannabis extraction.I found it very interesting to read about how people looked at the topic decades ago. That was a lot of fun.0 of 0 people found the following review helpful. Five StarsBy Brian BurkeA must have ! For the essential answer

Cult classic, revised and updated. Alchemist D. Gold reveals the inner world of marijuana and hashish, uncovering secrets and modern techniques to enhance potency. First published in 1974, the original edition of Cannabis Alchemy sold over 100,000 copies, making this one of the all-time best sellers of the counterculture.
