**UDON : Capcom Fighting Tribute** before purchasing it in order to gage whether or not it would be worth my time, and all praised Capcom Fighting Tribute:

I assumed fan-art would be of iffy quality and that I could find online. However, I should have trusted Udon, as I love all their other books. Upon picking this up, I was astonished at the quality of both the art and the book itself. The spectacular hardcover binding, the solid paper stock and the illustrations without are all top-notch. It is broken up by game/series and this pays tribute to even many of the lesser-known Capcom fighters. The art styles are diverse, unique and every bit as professional-looking as an Official art book. If you are on the fence, trust in Udon. This book is remarkable in every way. I've gone back to grab the Street Fighter tribute and I'm considering Darkstalkers and MegaMan due to the quality presented here. 5 stars without question.0 of 0
