From US Games : Cats of the World Card Game (Natural World Playing Card Collection) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Cats of the World Card Game (Natural World Playing Card Collection):

was hoping the pictures were a little better to use as cat breed cards but it will not be possible. All pictures on cards are hand drawn and look like older drawings. The best way to put it is they look like the cover cat. It works fine as a card deck so I gave it 4 stars but took off a star due to the quality of the pictures. It is not something I would buy for a child that loved cats and wanted a deck of cards. 0 of 0 people found the following review helpful. Five Stars By beedolphingreat6 of 13 people found the following review helpful. This is not a book. It's nothing but a pack of cards. By Franklin Newman But it's a lovely pack of cards. 54 different breeds of cat are lovingly detailed, one breed on each card. This is not so much a pack to play with, unless you buy two of them. This pack is much more beautiful as part of a collection. Note: I haven't purchased any other cards in this series at this time.

These decks feature full-color illustrations created exclusively for this special series, with a different picture on every card face. Each deck contains 54 cards. Cards measure 2-1/4" x 3-1/2".
