Tom McEvoy, Brad Daugherty : Championship Hold'em Satellite Strategy (The Championship) before purchasing it in order to gage whether or not it would be worth my time, and all praised Championship Hold'em Satellite Strategy (The Championship):

0 of 5 people found the following review helpful. Husband loved it! Seller was great! By L. F. Rawls My husband loved this book and is waiting for the next one to release. The seller was fantastic and we received our order in perfect condition and earlier than we expected. I love shopping with ! 3 of 4 people found the following review helpful. About

as bad as it getsBy threebangerI'm probably in the minority when it comes to McEvoy books. I really try to give him the benefit of the doubt, and sometimes I think he produces a really good poker book when others don't. A great example of this is "How to Win No Limit Holdem Tournaments" he wrote with Don Vines. This book, however, isn't worth the paper it's printed on. I purchased it in hopes of getting some valuable advice on how to fashion a strategy for satellites. This would include a detailed discussion about bankroll requirements, low blind strategies, and most importantly bubble play. The bankroll topic gets touched on very vaguely, there are some general play guidelines that get better coverage in his other books, and there is little to no good consideration of how to play when approaching the bubble of a satellite. The final and worst flaw of the book is its passing mention of online satellites. Considering online satellites are so popular these days, you would think a 2007 redo of his earlier books on satellites (which I have not read but imagine cover the same territory) would spend more time on this aspect. Not talking extensively and proficiently about online play and the bubble aspect of a satellite would be like writing an instructional book on running for public office without mentioning advertising and filing deadlines. I was highly disappointed in this book (co-written with Brad Daugherty, to spread the blame equally), and figure I could probably write an improved product overnight if I really set my mind to it. Hey, maybe there's an idea. In all seriousness, don't waste your money if real satellite instruction is what you're after.

0 of 3 people found the following review helpful. A must have for satellite players

By Midwest Book Review

Before you enter a major poker tournament, you have to qualify. "The Championship Hold'Em Satellite Strategy" is a guide for poker players who are just at the threshold of the poker big leagues and are seeking to earn their way up by winning some big money at these satellite games. Covering everything from limit to no-limit hold em to other satellite variants, Envoy and Daugherty impart their own championship wisdom, making "The Championship Hold'Em Satellite Strategy" a must have for satellite players.

Two world champions show players how to win their way into big tournaments offering millions of dollars in prize money for a fraction of the cost by playing in small-entry fee tournaments. Chris Moneymaker did this when he parlayed a \$39 satellite win into a world championship title and \$2.5 million, as did Grey Raymer in 2004 when he turned \$150 into \$5 million. These exciting mini-tournaments, called satellites, made the authors millions of dollars and now they share their secrets with you. Step-by-step, you'll learn proven insider strategies for beating limit and no-limit hold'em satellites, as well as one-table, multi-table, online, and super satellites. Illustrations.

About the Author

Tom McEvoy is the 1983 World Champion of Poker, rarified territory occupied by only about two dozen players. He has won millions of dollars playing holdem in cash games and major tournaments around the world and is the author of 11 books including No-Limit Texas Hold'em (also in the New Player Series), Championship No-Limit Pot-Limit Hold'em, and Championship Hold'em.

Brad Daugherty, the first winner of more than \$1 million cash in World Series of Poker history, was the 1991 world champion. He has won countless tournaments and is one of the most feared tournament players today. He is also the author of No-Limit Texas Hold'em and Beat Texas Hold'em with world champion Tom McEvoy.
