**Daniel King, Chris Duncan : Choose the Right Move** before purchasing it in order to gage whether or not it would be worth my time, and all praised Choose the Right Move:

1 of 1 people found the following review helpful. Fun and Learn tooBy MAYANKINGThese are the books I love to read over. You are learning more than most books because you are actively choosing a move the CJS Purdy method to absorb games and add them to your knowledge base.8 of 16 people found the following review helpful. GoodBy A CustomerThe book content is extreamly good, however the way the book is bound makes it break very easily. If you

are patient and good with library tape you will enjoy this book. Based on content alone 5 stars--but with it falling apart on you it's not that great.

Most chess books focus on chess theory and technique, yet it is in the process of choosing each move that real games are won and lost This book is full of tips and advice on how to make the right choice every time, and to see when the opponent has allowed an attacking opportunity. Both authors are experienced coaches, with pupils ranging from beginners to masters. Therefore they are ideally qualified to pinpoint ways in which players of all standards can make their analysis and decision-making more streamlined and efficient.

From the Back CoverWhat differentiates a club player from a grandmaster? Is it simply natural talent, or can chess expertise be nurtured and developed? This book shows that the skills employed by the world's top players are not beyond the reach of the average player. By examining the thought processes of a grandmaster during play, the authors unravel the techniques by which a novice or newcomer to competitive chess could hope to improve. Discover how sound opening principles can get you a head start. Learn to spot and exploit tactical chances when they arise, to devise plans and understand common strategies, and to maximize your chances in the endgame. Packed with practical tips and tricks to help you turn the game your way, this book will set you on the right path to choosing the right move!
