A necessary guide to navigate the game.It is great in explanation, a bare bones walkthrough with a terrible map section.By JayZeel've come to realize, that a guide is needed for rpgs, most are lacking. You'll find yourself going to on-line faqs, wikis and the like. The main body of this guide does a fine job explaining the basics of the game. All necessary parts of the game are explained in the opening sections.The battle system is a brilliant concept. Every character has a specific element and a grid that grows as you fight. The CC guide shines here. I hate having to create things. But the forging of items is minimal: weapons and armor. It is necessary to upgrade your weapons at points in order to advance in the game. Forging has it's own section while the guide cites

when to upgrade. You recruit characters but you can't get them all in one playthrough. Plus there are multiple endings. Bringing to mind some great rpgs such as Star Ocean the 2nd Story which has about EIGHTY endings. In Suikoden III you also find various party members but you MUST play it three times through from three points of view. Back to Chrono Cross, which has a section on all the characters, the conditions under which they will join you and their strongest attacks. The walkthrough is bare bones. Not to prevent spoilers, but because of laziness on the authors part. Lastly, I have NEVER seen such a confusing, screwed-up and crappy a map section in ANY other guide!!!!0 of 0 people found the following review helpful. A great replacementBy CustomerOne of my favorite video games and needed a new guide from 17 years of wear and tear. Product did not disappoint and arrived in new condition with only very minor bending in the books spine from storage I'm guessing. Would buy from this seller again.0 of 0 people found the following review helpful. Five StarsBy Daniel W.Great book. One of my favorite guides ever

BradyGAMES Chrono Cross Official Strategy Guide Features: Thorough maps for both worlds and comprehensive side quest coverage. A bestiary and weapons, armor, accessories, and elements lists are included. Plus a detailed walkthrough revealing all side quests and strategies for every important battle!
