**Scott A Rossell : Cigar Journal: for the Discerning Aficianado(Deluxe Second Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Cigar Journal: for the Discerning Aficianado(Deluxe Second Edition):

few pages. The only reason it is not a 5 star is the binding of the book. It would be so nice if it would lay flat, but it doesn't. It is very awkward to write inside the book.0 of 0 people found the following review helpful. Great Journal, but limited to the Author's Rating SystemBy Charles J. EbyI like the idea of the cigar journal. I've just started smoking cigars and need a way to remember which ones I like and which ones not. This book makes it very easy, and if it ever gets full, I will probably order a second copy. My pet peeves about this book concerns the rating system itself. The author uses weighted categories to rate each cigar, but one of the categories involves blowing the smoke through the nose which is something I'm unwilling to do at this point. Another category involves the aroma of the smoke which even the author admits cannot be done by the smoker himself. I have beefs with the weighting of a couple other categories as well, and wish he had included things like the size of the cigar and the length of the smoking session, but of course this is all minor. I like the book a lot.0 of 0 people found the following review helpful. Great product. Big space for bigger cigar bands or ...By Matthew ToddGreat product. Big space for bigger cigar bands or adding the bottom bands of some cigars plus the main band. Plenty of pages.

New Deluxe 2nd Edition! Better layout, easier to read, easier to use, and a much more attractive cover to show off your good taste! More than just a collection of pages to write down a few notes, this journal provides a complete scoring system and method to score and record two hundred and fifty cigars as well as keep a list of your favorites. No other cigar journal offers this much.

About the AuthorScott is a writer, researcher, explorer and photographer. In short, he is an Explorative Archivist. That is his unique and personal Life Purpose.
