**Vahe Gerard : Cigars: Revised and Updated (v. 1)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Cigars: Revised and Updated (v. 1):

0 of 0 people found the following review helpful. Too much not interesting discussion, not the best on the market.By CustomerWas not as in detail as i expected the book " ultimate cigar book" is far far better4 of 4 people found the following review helpful. cigarBy C. claspellThis book covers a large amount of info on cigars historical and present plus the best in the world (past and now). I was just starting out in cigars and this book has helped tremendously with ideas and tips for smoking, storing and all sorts of other vital things. The tips alone have saved my cigar collection and \$\$\$\$\$ from being wasted. Recommend to all as the book has things for the beginner to the avid collector.0 of 0 people found the following review helpful. A collector is right or wrong.By CustomerI think of the price and the contents as very good goods.One which satisfies worldly desires.

The first book in this two-volume boxed set details the history and traditions of the cigar, from tobacco harvesting to the significance of the cigar ring and how to detect a counterfeit cigar, followed by a practical buyers guide listing shops, clubs, websites, and useful addresses. The second book takes the reader on a tasting tour of one hundred individual cigars, exploring the sensual elements that make a truly superb cigar. Each cigar is presented in a concise table, graded on a scale of ten based on criteria such as flavor, aroma, and combustion quality, and accompanied by a lifesize photograph of the featured cigar.

About the AuthorVah Grard is a renowned cigar expert. His boutique Grard et Fils in Geneva is celebrated the world over for offering the finest cigars.
