Nick Baldwin : Classic Tractors of the World (Town Square Book) before purchasing it in order to gage whether or not it would be worth my time, and all praised Classic Tractors of the World (Town Square Book):

We've scanned the globe to find the most important classic tractors. The landmark result is Classic Tractors of the World, the only encyclopedia of vintage tractors of the world. Classic Tractors of the World covers the 100 greatest, most significant, and most fascinating vintage farm tractor makes-from the Allis-Chalmers of the United States to the Ferguson of the U.K. to the Zetor of Czechoslovakia. Nick Baldwin and Andrew Morland, both tractor experts, describe and illustrate the development and history of these engaging models. Chapters are organized by country and include the tractors of Australia, Canada, France, Germany, Great Britain, Italy, Sweden, and the United States. The

final chapter highlights lesser-known tractor makes from countries such as Austria, the Soviet Union, Finland, and the Netherlands. Morland's glorious full-color photography showcases the classic tractors in all their splendor. *Classic Tractors of the World* includes current photos of collectible tractors (most are photographed in their country of origin), black and white historical photos, and colorful period advertising artwork.
