Step by step you grow. It is not about being the fastest or strongest. You don't even have to

By Todd Justman
My first impression as a grown-up buying this book for my kid is below:
I can't believe this is for sale as a book. The pages are in black and white. The photos are hard to read and are very small. There must be 1-2 inch margin around every page. The font is small and very hard to read. This is clearly self-published and done so with the poorest quality. I can't imagine the author knows how bad this turned out, else he'd take his name off of it. It's highly likely this thing is going to be returned, depending on if I dare follow through with my plan to give it as a gift.
Update 7/21: the author reached out and offered to do a refund or send me a PDF copy that would be easier to read, which is much appreciated. We'll take him up on the PDF offer. I did share with my by early to see if he would like the book. My son loves the traps so we'll keep the book. The one with the water that kills your opponent and makes it easy to recover his dropped stuff is especially devious.
