1 of 1 people found the following review helpful. A Fun Read By J. F. Burke If you play Fantasy Football, this is a must-read. It's a fun trip through the early days of FF, when men were men, but didn't always tell their wives what they were spending all their time doing. It's a story told with wit and humor. This guy Dreznes should be writing for SI.0 of 0 people found the following review helpful. Coach Potato by Mike Dreznes By John C. Durkos This book is a look

back into history to see the "Bill Gates of Fantasy Football". It makes you wonder how he did it. It is a great story about a real pioneer written for the football fan.

Websites have made it easy to play in fantasy leagues. Scoring is automatically tabulated and results are a mouse click away. E-mail and online message boards facilitate trade proposals, waiver wires and trash talk. For many, online fantasy football is the only fantasy football they've ever known. However, fantasy football did not start with the internet. In 1988, there was no internet, but there was fantasy football. Without online automation, the glue that held a fantasy league together was the commissioner. Every week the commissioner poured over sports sections, totaled points and sent out results via snail mail. The commissioner was the heart and soul of the league. In 1988, one such commissioner, Mike "Zeke" Dreznes chronicled the season. Although the internet evolved fantasy football, the spirit, dedication, and camaraderie of league members remains the same. Enjoy this glimpse into fantasy football past, through a book that was remarkably ahead of its time.
