I was really disappointed by this product due to the flimsy construction of the book. For \$10, there is a single picture of Ryan Gosling per page and only a few pages in total. The book came slightly dented with the corners damaged due to the shipping. I also ordered the Color Me Swoon book, which I would definitely recommend over this one.I vote skip this product and order the Color Me Swoon.3 of 3 people found the following review helpful. great gag gift for the GFBy Scott BYeah, she's a Ryan fan. I got a laugh out of handing her this with some colored pencils. She still works on it a little bit while we're on the couch and I'm watching Walking Dead. Fair trade off :)2 of 2 people found the following review helpful. A nice giftBy JohannaBought this as a gag gift for my brothers girlfriend, as everyone is constantly saying by brother looks like Ryan. The book was actually really nicely constructed and the photos were quite funny. I'd definitely buy it again. The book made nice gift overall.
