John Robertson, Patrick Humphries : Complete Guide to the Music of the Beatles (Complete Guide to the Music of...) (Complete Guide to the Music of...) before purchasing it in order to gage whether or not it would be

worth my time, and all praised Complete Guide to the Music of the Beatles (Complete Guide to the Music of...)
(Complete Guide to the Music of...):

1 of 1 people found the following review helpful. Alternative Kindle book By Tero Most of the text of this is contained in the Humphries book *The Beatles: The Music and The Myth*. The Kindle version with the German title, has "und" in it, is the German translation of the same. I have the paper version too of Complete Guide, I just like to carry it around to reread into the Kindle version. It lists the songs album by album, a paragraph summary on each and an essay on the album. Summary: All books with Humphries as author on the Beatles are essentially the same book. 3 of 3 people found the following review helpful. Another In This Great Series By A Customer This is one of the best series of books on popular musicians and this particular book packs in a lot of information into a small size. A lot of this background, however, can be found in the respective CD booklets. Good overview but a bit repetitive. Uses similar pictures to Vol 1.

The indispensable consumer's guide to the music of The Beatles, from their first single *Love Me Do* up to *Let It Be... Naked* released in 2003. Features include: An album by album, track by track analysis Information on when and where the music was recorded A track index for easy reference Special section on compilation albums
