My husband and I run a gaming channel on YouTube with the main focus being on Minecraft. We also have a son who enjoys playing and it is used in his homeschooling. We are a little addicted. With that said, I did not think I would learn anything from this book but in reality I did have a few "I never thought of that" moments. This is a very fast read with no filler, just tips. I would recommend it for anyone that is new to the game or wanting to venture further into the world of PVP.Chapter 1 is "The Basics" - This is a good chapter to read before you even buy Minecraft. It brings up things like RAM and having a decent mouse.Chapter 2 is "You Against Your Environment" These are the basic basics such as keeping food and tools with you.Chapter 3 is "Survival Tips: What to do Before PVP and in the Early Part of the Game". These tips involve more advanced game play (such as enchanting) and PVP tips.Chapter 4 "In Game Tips and Tricks That Will Lead to Your Victory" These tips offer some great strategy pointers for PVP.Chapter 5 "Experience Minecraft Ownage With 70 More Tips" These are more basic tips, tricks and hints.I received this book for free in exchange for an honest review.1 of 1 people found the following review helpful. Great Game Walk-through, Tips and TraicksBy Jay BMinecraft: 140 Top Tips Tricks Exposed!I don't know much about Minecraft like my 2 sons. I got this for them to see what they thought and... they loved it. They thought they knew everything about the game but boy were they mistaken. They can't get enough of it. Today they learned how to build an advanced pulley system. So just when you think you know it all read this book and play like a

champion!!!This was my first digital download.0 of 0 people found the following review helpful. Great for PVP or Multiplayer.By Mommy to 5 little peanutsI didn't realize when I ordered this that it was for PVP which is Player Versus Player. My son only plays in creative mode and this is not really applicable to that mode. It is more for competing against others. I can't fault the book for my lack of attention to detail. I got this to read for my son in exchange for an honest review. If you or your child are playing PVP or have the hook up to play multiplayer these tips would really benefit you. We have neither. our Xbox is not even connected to the internet. Hope I helped someone. I wish I had realized before getting this that it was would have saved my son and I some time reading it unnecessarily.
