Save yourself time: find a free guide onlineBy DeshanyaI received an electronic copy of this book in return for a review.I can sum up the first half in one sentence, "Check out the web". Basically, nearly everything in the redstone ideas section is too complicated for a book and, in some cases, too complicated for YouTube as well.The tips in the second half of the book seem oriented toward two kinds of tips:

common sense and PvP. If you have some sense and don't PvP, you won't find this part very useful. All in all, I'd say, go for a free online guide. Hey, even this book recommends it! 0 of 1 people found the following review helpful. I didn't read the book. By Salvatore P Lentini. If any of Jason Scott's books were free, I would be able to tell if he writes good books, and I might buy ones that cost money if I knew it was worth the money. Like if it turns out it's bad, you just wasted your money, and if there was a free version, you should buy that one instead.
