After reading the book description I decided to get this since I find it informative and would not make my brain "LAG". And yes I was right, guides about the game are in detail and easy to understand, I am a busy person and I am looking for easy to read guides, and this one surely grant what I want. I would recommend this book to those who are interested in having this game and for those who are still rookies in this.0 of 0 people found the following review helpful. Minecraft handbook that is good for youBy Ronald

MartinezThis book alone will help you build incredible creations on Minecraft. The tips and strategies are all written really well and detailed and all beginners will be very happy after having been taught by this guide. You will realized how enjoyable it is build your kingdom in Minecraft because of this book. Minecraft is indeed a very fun game and you can master it quickly after reading this book.0 of 0 people found the following review helpful. My nieces and

nephews liked this book very muchBy Alicia MooreMy nieces and nephews liked this book very much! They have been playing minecraft and has always been asking if there was a minecraft guidebook they could read. They said this book gives them the battle technique they needed. I may have not understood what they are playing at my age but seeing them happy would wanted me to purchase more minecraft book in the future.
