It's probably because we are just on pocket edition Minecraft, but these books were barely opened. The guides written for kids seem a lot more helpful. Maybe I'm just not attuned to learning from this format of book.I will probably get rid of this book, and make room for another.Big Book of Minecraft, and the scholastic Minecraft Complete Handbook Collection are being used daily by our family.0 of 0 people found the following review helpful. Buying the bundle is the way to go!By CustomerIf you or someone on your list is just getting into Minecraft, these are the books to get. The game is great and easy to get started with, but deeper than meets the eye. The books in this bundle will point you in the right direction and explain the basics and beyond in easy to understand text and diagrams. The authors are obviously players with in-depth knowledge and a love for the game. Price the individual books locally, then come back here and save some money. Good stuff!1 of 1 people found the following review helpful. Five StarsBy Susan WinsorThese three books are great for looking up how to do or make things quickly...great for beginner in Minecraft.
