Minecraft Books, Kevin Reed : Minecraft: Genesis - A Legend of How It All Began before purchasing it in order to gauge whether or not it would be worth my time, and all praised Minecraft: Genesis - A Legend of How It All Began:

0 of 0 people found the following review helpful. the kids will eat this stuff up...By Clio11 Bought 4 of these for the gift bags from my son's birthday party. I decided not to get little tricketts like usual and thought the boys would like something Minecraft instead. Boy, what a score. The price was good and the boys thought it was cool. One mom emailed me the day after and said that her son stayed up half the night reading it in its entirety. I apologized and she told me not to since he was actually reading (they are 10 so it isn't always a priority)! My son is halfway through with his copy and he loves the book. Score.1 of 1 people found the following review helpful. The first block of MinecraftBy Terry Bickell I love to read and lately everyone I talk to young and old are talking minecraft. I wanted to see what it was about. Your book caught my eye. Started it and couldn't put it down. It totally kept my interest and hated when I came to last page. Would very much like to see a sequel from you. Will be looking for it.0 of 0 people found the following review helpful. IntriguingBy lolAn intriguing tale to say the least a definite must have for anyone who enjoys minecraft lore.I definitely recommend this wonderful book.

Minecraft: Genesis - A Legend of How It All Began is a very exciting story about how the world of minecraft was created. Follow along the first legendary four brothers - Notch, Jeb, Junkboy, and Herobrine - who find themselves to be the first inhabitants of a new world called Minecraft. Their mission is to build a Minecraft society from the ground

up. Will their differences pull them together or drive them apart? Will they succeed in building a brave new world?
