before purchasing it in order to gauge whether or not it would be worth my time, and all praised Minecraft Handbook: Minecraft Handbook: The Ultimate Minecraft Handbook Guide to Mastering Minecraft (Unofficial Minecraft Handbook) (minecraft handbook, minecraft pocket edition, minecraft mods):

0 of 0 people found the following review helpful. Horribly bad book
By Eric Cheng
This book was so short, this book is really bad, this book is really bad, this book is really weird. These seeds, are they even good? And why just a wooden sword? You should have done a golden sword. Why didn't you have the beacon? And you didn't add the mode hardcore. I could have written more stuff, but this book is too bad to waste time on writing a bunch of mumbo jumbo stuff, and again why was the book called "tips for mastering minecraft"? Or something like that. It just had a bunch of weird stuff in it. Anyway, this book is really bad, and the author should make good books.

By Bridgett B.
Great for my kids who are obsessed with Minecraft, While I have not read it myself, I have 2 14-year-old boys who have and they like it. I don't play Minecraft so I really have no interest in reading it. But that being said my boys said if you play/like Minecraft this is a good read

By Amber CI
I have fought and fought to get my kids to read for "March reading month", the very most dreaded month of the year in our household!! This book was a lifesaver!! It was FREE!! Bonus, as we cannot get a library card due to our location and an easy download in the Kindle App store, so they could take it with us, wherever we went. Perfect! They read it pretty quickly, but hey, they read and took notes too! Awesome!! That's all I ask, please read so the teachers won't kill me! Lol. Thank you for writing this book and making it available for free. I am now onto the next search for another book.
