Each page contains about 25 words in 75pt. font - it is a joke. One can obtain more info from a Google search than what this book provides.2 of 2 people found the following review helpful. Waste of

moneyBy K. NishimuraThe print on each page is gigantic. This is the only way the information offered could make a book. There was nothing useful in this book and I knew very little about mods to begin with. Do not waste your money!3 of 3 people found the following review helpful.
