**Josh Abbott : Minecraft Pocket Edition Game Guide** before purchasing it in order to gage whether or not it would be worth my time, and all praised Minecraft Pocket Edition Game Guide:

1 of 1 people found the following review helpful. Not specifically for Pocket EditionBy CustomerWhile the title of the listing states Pocket Edition, the title of the book does not. There are some tips in here specifically for PE, but the book is poorly organized, and it is difficult to tell when a section might apply to PE and when it might not. This is an attempt at a blanket guide for all editions of mine craft on different platforms.1 of 1 people found the following review helpful. Not as useful as we thoughtBy MargoMy boys were excited at first to get this guide, however, very soon after reviewing it, they found out that they could not use a lot of the recommendations, apparently, many of the tips, etc are for the PC version, so as a result, they have not touched the books again.0 of 0 people found the following review helpful. Poorly published - contents okBy RSThe photos are so unprofessionally done - some you can hardly tell what is in them. My son never opened this book again after buying other similar books. Wish I did not buy this one.
