Minecrafters By Kristina S. My 9 year old daughter is really into Minecraft and loves to read. She read through this whole thing within 1 week and is very happy Santa gave her this for Christmas. Some of the things in the book she already knew but what she didn't know the book explained very clearly how to do the different things. One of her friends parents bought the book as well based upon my daughters experience. 0 of 0 people found the following review helpful. I Now Can Survive Longer With Style! By Linda A. Fifer For a Noob at this game, it gave me a plethora of information and a quick "how to" guide to sit along side my computer as I played. I was able to quickly find what I needed to further my progress in the game. Best used in small doses so as to not be overwhelmed. I would recommend this to novices, it may not help those that are more advanced, but I am sure there's something in there for everyone who loves this game! Thanks for enhancing my game play!
