If you want to bid accurately and achieve greatly improved results at the bridge table, you have to master the Losing Trick Count. It is a tried and tested method of hand evaluation which has stood the test of time. Ron Klinger, famous international player, author and teacher who has more books to his credit than many players have had good hands, has brought the LTC up to date by relating it to modern systems and conventions. Now in its eighth impression since original publication, this remarkable book is set to hold its place as the standard text on the Losing Trick Count.
