Capcom : Monster Hunter Illustrations 2 before purchasing it in order to gage whether or not it would be worth my time, and all praised Monster Hunter Illustrations 2:

0 of 0 people found the following review helpful. Brilliant. Absolutely Brilliant. By Antonio Torresan 400 pages of gorgeous, high-quality artwork and solid design. The only problems i have with the book would be the layout, as the designs aren't laid out in a logical order or progression (e.g - early designs to finalized designs for each design), they're merely put into groups and not in any particular order. Also, they neglect to label the designs and instead waste many pages on a numbered glossary to reference what designs are. In all other aspects though, the book is brilliant. Near perfect. A must-buy for anyone who appreciates good design. 0 of 0 people found the following review helpful. Five Stars By luix Beautiful artwork. 0 of 0 people found the following review helpful. Awesome Video Game Artbook / Illustrator Resource By Bradley G. Okay. So I ordered this book to add to my reference library and honestly I LOVE IT !!! Lots of Illustrations from monsters to Armor and settings. The only thing that I wish was longer in this book are the monster illustrations, they compensated with the weapons and armor sections but I love it greatly! I recommend this for anyone who loves the video game series and wants to see the process behind this series!

Monster Hunter Illustrations is back with a new, mammoth-sized, 400-page artwork collection! Monster Hunter Illustrations 2 covers all the third generation Monster Hunter games including Monster Hunter Tri and Monster Hunter Portable 3rd. Featured are creature designs, character designs, armor, weapons, tons of rough sketches, and more!
