Capcom : Monster Hunter Illustrations (Monster Hunter Illus SC) before purchasing it in order to gage whether or not it would be worth my time, and all praised Monster Hunter Illustrations (Monster Hunter Illus SC):

The concept art is very detailed and there are explanations on the team's creative process. The team members explain how they created the world and how every piece of armor and equipment comes from that world. There are sections on the monsters, the characters and their armor, the NPC's, the Weaponry, Icons, Promotional Art, and Sketches.Definitely pick it up if:You're a fan of the Monster Hunter Series.You collect video game art books (this is one of the better ones and it's 300 pages.)You like cool monster designs (and you like things like DD Monster Manuals).You like cool armor / weapon designs.You're interested in the creative process that the pros in the film or game industry use.You need Monster / Knight art references.It's Great!0 of 0 people found the following review helpful. Hurray reprint!By Sean GiovanniAt least I think this is. I tried to pick this up last year, and couldn't find one in stock. But with the release of illustrations 2 now out I figured I'd check and here it is!Very nice over all. Art is just amazing, and I loved all the little bits of information the artists included.0 of 0 people found the following review helpful. Five StarsBy KikiMochygreat source of lore and reference.
