1 of 1 people found the following review helpful. Great Product and Service! By MonGEI've been buying these Jumble Puzzle books for my mom for every birthday and Christmas for a few years now. She loves them because she says they help to keep her mind working now that she's in her late sixties. I'm glad I can buy a bunch of these at a time on since they aren't available where I live. For this particular order I received some excellent customer service. I noticed it was taking a little bit longer than usual for my items to ship so I contacted an customer service rep via chat. No questions asked, the rep immediately expedited my international shipping and I received this order a few days later.

Just one of the many reasons I love !0 of 0 people found the following review helpful. Another really great jumble bookBy RobinI purchase these for my husband and sometimes work on them with him. This is a nice twist on the typical jumble book because we both like crossword puzzles as well. We like all the jumble books quite a bit.0 of 0 people found the following review helpful. Five StarsBy Denise ElaineFantastic puzzle book. They get you thinking!

Complete the crossword puzzles by looking at the clues and unscrambling the answers. When the puzzle is complete, unscramble the circled letters to solve the bonus riddle. Even tried and true Jumble "RM" fans will not be able to resist this new take on a great puzzle.
