S. G. Tartakower : My Best Games of Chess: 1905/1954 (Two Volumes Bound As One) before purchasing it in order to gage whether or not it would be worth my time, and all praised My Best Games of Chess: 1905/1954 (Two Volumes Bound As One):

1 of 2 people found the following review helpful. ENJOYING ITBy GILBERTO CUISONI love playing and studying older masters game as well as Dover Books on chess. Dover books are durable and long lasting.2 of 7 people found the following review helpful. ExceptionalBy Melvin P. FritzeExcellent book, although standard notation. Went to my database to print algebraic notation and then went over games.4 of 4 people found the following review helpful. Must-Have ClassicBy Keith L. JohnsonOne of the truly great game collections re-released by Dover. True Tartakower is no Capablanca or Alekhine but he has a unique playing style and a joyful willingness to play unorthodox openings. His writing is also quite witty at times and much more entertaining than the more stodgy writings of say Alekhine. Don't get me wrong as Alekhine is my favorite player of all time and I collect his books as much as possible but lets face it he is all business. But back to Tartakower- I most heartily recommend either this book or the algebraic notation edition by another publisher with the obligatory higher price.

Book by Tartakower, S. G.
