Love it, and highly recommend.BUT, I'm giving this only 1-star because is shipping many customers books with BLANK COVERS. And it is worth nothing that nowhere on the product page does indicate that a "blank variant" exists, or that they may receive that variant. In fact, the site only shows pictures of the primary version of the book, which DOES have cover art on it.I'll be returning this product, but only in order to exchange it for the proper version with cover art on it.0 of 0 people found the following review helpful. Blank cover?, Rest looks fine.By SpeedingCheetahCover is blank. I see thanks to other recent reviews....that

this is a recent thing. Printing error? Or is it meant for the owner to draw their own art on? Its not a glossy print material in the center of the cover, but rough regular paper.O well...I don't really care...I suppose one could always use it as a main canvas for VA signatures..if your the type to con to conventions etc.3 of 3 people found the following review helpful. Did anyone else get a copy with a mostly-blank cover?By CustomerI know I shouldn't judge a book by its cover, but that's hard when I see pictures of the brilliant art by Andy Price that's apparently the standard, while mine's mostly blank. It has a glimpse of that Price art around the edge of the cover, but the middle is flat solid white. Did anyone else get a copy like that?
