After trying to figure out the movie from the icon clues, it really felt like a victory to get the answer correct.Some of the movies are not ones I am familiar with...in fact, some are very esoteric...so it was a bit frustrating to spend time trying to guess a movie I did not know.If you have a friend who is a BIG movie fan (like I do) this seems like a perfect gift.0 of 0 people found the following review helpful. A fun and challenging book of puzzlesBy DondojeffThe artwork in Name That Movie was fun and the level of challenge was high for many of the puzzles.If you do not pay attention to small details while watching films, this book might not be for you. For example, the author is an admitted fan of, and relies on drawings of signs and street scenes. That said, I enjoyed it and it made for good conversation at our family holiday gathering.
