**Amy Larocca : New York Look Book: A Gallery Of Street Fashion** before purchasing it in order to gage whether or not it would be worth my time, and all praised New York Look Book: A Gallery Of Street Fashion:

0 of 0 people found the following review helpful. Lightweight book.By georgeThis book has few fashion photos and all are on totally white backgrounds. It has weak interviews with the people who are wearing the fashions. This is more a lightweight book of people who are wearing the fashions. Sometimes there is just a photo of the face of a person with no view of the clothes. Other times only the upper body is shown so I can't see the entire outfit. I think the title of this book is misleading. I compare it to The Sartorialist by Scott Schuman which is a solid book of New York City fashions taken on New York Streets. No interviews here and just over 500 pages of photos.0 of 0 people found the following review helpful. Something MissingBy JaneThe introduction is very funny, they found beautiful clothing people. It just feels distant.0 of 0 people found the following review helpful. I LOVE NEW YORKBy PozzibleIf you

love New York and New Yorkers, this is your book. The essence of New York Street Style beautifully photographed by Jake Chessum and ready to uplift any homesick New Yorker abroad. A collection of one of my favorite New York Magazine columns now available to embellish the display on any expat coffee table. If you're in New York, get up, walk the streets and enjoy the real thing, you won't need the book.

Since 2004, New York magazine has been celebrating New York City style in a feature called "The Look Book": a centerfold-with its subject shot at random anywhere and everywhere across Gotham-along with an interview about the subject's personal style. The New York Look Book collects more than 200 of the best Look Book features, and a special "Where to Find It" section offers readers not only store listings, but also an insider's guide to New York's distinctive neighborhoods.
