Not bad but I have a few issues By Dave E Not bad but I have a few issues...found numerous times where the letter represented was the actual letter like the name Chuck was actually JPZJK... it threw me on a couple occasions... wasted time when I thought I had the correct word but it didn't fit...do not do the author first... WAY to easy...and the same authors are used over and over again...I skipped the first 22 pages and went right to the Cryptoquotes as I was not interested in trying to guess some actor or comedian's name or film name...really did the font size and plenty of room to right the answers...one other drawback was that the pages could have been put on a spiral...found it to be a royal pain trying to fold the book over...not really bad but I would not buy it again or recommend it...sorry Patricia .1 of 1 people found the following review helpful. Not good for seniors. By Marilyn Fitterman This cryptogram book is supposed to be easy w it's large print. However the letters are so close

together ads to make it difficult to work the puzzles. It's a waste of money, don't buy it. 1 of 1 people found the following review helpful. Cryptograms are all printed in capital letters, making it ...By K. Vanderveken Cryptograms are all printed in capital letters, making it difficult to make out individuals letters. Also, the book is poorly edited. Some words are strung together to make one word...
