Now he spends hours a day doing these in the book. I think it keeps his mind strong - he has no signs or symptoms of Alzheimers and I believe reading and doing these types of puzzles help to ward off different illnesses. My Dad said the "hard" are very difficult, but he has not had to look at the answers in the back. 0 of 0 people found the following review helpful. Too big By GFI expected a pocket book size instead of the huge 8.5" x 11" and returned it immediately. 0 of 0 people found the following review helpful. Will order again.
