By Fender Fan I'd give this maybe a grade of C+. The book was much smaller in size than I had hoped for in an erotic photography book. The photos are well done however strictly a personal preference in this book would be a larger abundance of shots of the models without shoes so the female foot clad on nylon could be spotlighted more. If you were looking for this specific element of the nylon clad female foot to add to your collection I would pass on this book. Hope this helps others decide to purchase or pass on this book.

By AnOn1llus10n This book is fantastic if you like alt/rock type girls. The photography work is great the outfits are extremely sexy. The only thing I was expecting was the small size of the book. I was expecting a large, coffee-table type book rather than something the size of a paperback.

By Gaddijj The photos are well crafted and the models are all very attractive. If you like garters, heels, and sexy leggings you should buy this book. Goliath products are iffy sometimes but this book hits a lingered home run. You can go to Goliath's website (the publisher) to get more previews of the book.
