**Doug Gardner : OCTO Nemesis: Hard and Very Hard OCTO Puzzles** before purchasing it in order to gage whether or not it would be worth my time, and all praised OCTO Nemesis: Hard and Very Hard OCTO Puzzles:

2 of 2 people found the following review helpful. Grab some coffee and a pencilBy T. SterlingYou need a pencil for these. They are very challenging. I started filling in what I thought were correct answers on the easiest puzzle, and had to go back and white-out all my errors. Excellent challengers right from the start.1 of 1 people found the following review helpful. Awesome challengeBy Ulrike FiegleinGreat if you look for something new. I still love my Super Samurai Killer Sudoku's, Ken Ken's and Kakuro's but it was time to bring something new to my puzzle addiction.

Great idea for people who like numbers. I highly recommend it. 0 of 3 people found the following review helpful. New Boring Twist on Sudoku By ROCKMAN These puzzles are an attempt to make sudoku less boring, it fails. They get boring as you go along, following the same pattern.

The OCTO puzzle is a brand-new, patent-pending math and logic challenge that is part Sudoku, part Kakuro, and part something else entirely! OCTO Nemesis is a collection of 60 Hard and Very Hard OCTO puzzles--the perfect book for those who want to feel the full fury of the addictive brain teaser known as the OCTO puzzle.
