Rachel Caryso fun! Like Sudoku, but better!3 of 3 people found the following review helpful. Excellent Brain TeasersBy ROCKMANI found "Octo" to be a new, refreshing, well-designed type of number puzzle, that will keep you interested and entertained. Sudoku and Kakaro have become played out and a little boring, what a great concept Mr.Gardner has developed. The puzzles are broken down into easy, medium, hard and very hard, all of which require just the right amount of logic. Really Cool!

The OCTO is a brand-new, patent-pending math and logic challenge that is part Sudoku, part Kakuro, and part something else entirely! OCTO Reloaded is a collection of 60 OCTO puzzles that range from Easy to Very Hard--the perfect book for experiencing all that the OCTO puzzle has to offer.

From the AuthorImagine the result if you smashed a Sudoku puzzle into a Kakuro puzzle at 150 miles per hour. That's OCTO!
