Only critique is that there could be more "interactive" activities (more popular and fun to do for stoners!) rather than word play, photos, and so on. Still a great book, and would still recommend purchasing!1 of 1 people found the following review helpful. Love itBy NikkiThis is another table topper... But it's also the cutest activity book ever. My boyfriend and I just loved it, it's a shame they haven't came out with any more, the coloring pages were cute to do together.0 of 0 people found the following review helpful.
