After running across this special sneak-peek of Omni Eyes: The All-Seeing Mandala Coloring Book I wonder why I stopped. This coloring book is the adult version of a good time well spent with markers, coloring pencils or pens. With intricate designs and fully printable pages, I fell into my thoughts, my head and my feelings and I let the patterns sweep me away. I truly cannot express how relaxing and meditative coloring Mandalas is, its mesmerizing and captivating, each piece a work of art that YOU CREATE. The artist had given us the framework of patterns, designs that we follow and embellish upon, each one unique and true to how we are feeling. I could tell that each page was carefully wrought and drawn in order to elicit the most supreme state of concentration and even meditation something Mandala art is meant to inspire. Its easy to see that this is not some computer generated format, but a real, heartfelt artwork created for pleasure and use. I have attached a picture of my most recent effort, its rather amateur as I was using thick markers but I am buying thin line pens soon! 2 of 2 people found the following review helpful. Mandala coloring book--a cool find By ctr girl I downloaded this Mandala coloring book on kindle unlimited to see if there were any Mandalas that I was interested in. And, I'm glad I did. The owl and lion creation instantly caught my attention, as did the crying eye, so I purchased the eBook. I'd like to

try these out with color pencils and watercolors. I would recommend this book for anyone new to Mandalas, and to adults and young adults who enjoy art. The detail and patterns of these pieces are very relaxing to color. Awesome! 0 of 0 people found the following review helpful. Brilliant Designs!! By Eva Xanthopoulos I can't get over how beautifully intricate each and every design is in this coloring book. I absolutely love that I can nurture my inner child and enter a state of total relaxation while immersing myself in the art of coloring. This is definitely one of my forms of meditation and it could very well be yours! Needless to say, the artwork is FANTASTIC and I could not be happier with my purchase. In fact, I'm going to need more of these to color soon I'm addicted! Plus, the price is highly reasonable. Me = Supremely Happy Customer. :)
