**Edna Ferber : One Basket: Thirty-One Short Stories** before purchasing it in order to gage whether or not it would be worth my time, and all praised One Basket: Thirty-One Short Stories:

0 of 0 people found the following review helpful. which gave great insights into early 20th century American culture and her ...By J. M. EwingHaving been swept along by her autobiography, which gave great insights into early 20th century American culture and her growth as a writer, I was truly disappointed by these stories. Whereas the 1st person narrative voice in the autobiography seemed honest and unassuming, the narrator in the stories was intrusive and judgmental. I can see why many of her contemporaries have stylistically transcended the century much more effectively.1 of 1 people found the following review helpful. A great American authorBy Nora M QudusEdna Ferber is a great American author and her stories are real insight to a time neglected by history classes. To know who we are as a people it is important to know who we were during the fast changing times at the turn of the last century. Some stories will seem dated but they are the voice of their times and these voices still speak to us today. A short story is like a trip in a time machine. Who are we? We are the collective past.

Sturdy binding. Clean covers. Light exterior wear. Pages mildly tanned but otherwise clean.
