Cool idea, could have been better executed By joe mahan Most of these are fun to look at and make playing cards with the kids a little more entertaining Some of them require spinning the card, but the design is more on one end of the card than the other which makes it impossible to see the illusion. 0 of 0 people found the following review helpful. The kids really enjoyed looking at them By Amber I bought these for a cub scout event. The kids really enjoyed looking at them. They were just what I was looking for and the price was right!

Look twice: sometimes what you think you're seeing isn't there at all. This deck of 55 cards is an eye-catching collection of optical illusions that fool the eye and delight the imagination. Created by Pentagram, based on the best-selling book *Pentamagic* (Simon Schuster).
