8 of 8 people found the following review helpful. Absolutely Great Read
By DeN.W.A. blew up on hip-hop, entertainment industry and the political realm like a mushroom cloud leaving debris on middle America, law enforcement and the Constitution. Their international influence is still felt today. On the heels of the hit movie Straight Outta Compton comes this awesome new book, filled with new details, such as Easy-E's hustling days, and Ice Cube's relationship with the Nation of Islam and Jewish Defense League. It's great learning how some of these important relationships were made, succeeded and disintegrated into a financial battle royal. It's impossible in any other profession for young men in their late teens and early twenties to become influential millionaires, this book made me feel like an insider toward understanding the entire process. I now wish this could be used as a blueprint for a Netflix Series.

By Jake Zimmerman
Original Gangstas is a fun and entertaining read. Westhoff packs a lot of detail into an easy-to-read book that puts you in the center of the action. At the same time, Westhoff is a dispassionate observer who reports without injecting any obvious bias into the longstanding debates, disagreements, and mythology surrounding the events that led to this category of music. His years of interviews and thorough investigation paid off with never before heard details that give context to the foundation and growth of a new music genre and the struggles of the artists (and businesspeople) who made it happen. I found his descriptions of the interviews particularly interesting - the additional detail, while not fundamentally necessary to the story, made me picture myself in his shoes as he sat through countless discussions. I wholeheartedly recommend this book!
2 of 2 people found the following review helpful. Thorough and engrossing
By Customer
Original Gangstas is a thorough and engrossing telling of the rise of West Coast Rap. Mr. Westhoff did extensive research, interviewed countless people, and sifted through fact, opinion, and hearsay like the professional journalist that he is. The characters are all portrayed as the very real, very flawed, and very talented individuals they were. While other books and films chose to ignore some of the darker aspects of these individuals' character and story, Mr. Westhoff dives right in and shows both the good and the bad. He is a true fan of the genre and that helps him express just how groundbreaking this music was as he tells the story of the people who made it. If you are interested at all in music, hip-hop culture, race relations, or the tragic drama that ended the young lives of Eazy-E, Tupac, Biggie, and others, this is a must read.

"Raw, authoritative, and unflinching ... An elaborately detailed, darkly surprising, definitive history of the LA gangsta rap era."--Kirkus, starred review
A monumental, revealing narrative history about the legendary group of artists at the forefront of West Coast hip-hop: Eazy-E, Dr. Dre, Ice Cube, Snoop Dogg, and Tupac Shakur. Amid rising gang violence, the crack epidemic, and police brutality, a group of unlikely voices cut through the chaos of late 1980s Los Angeles: N.W.A. Led by a drug dealer, a glammed-up producer, and a high school kid, N.W.A. gave voice to disenfranchised African Americans across the country. And they quickly redefined pop culture across the world. Their names remain as popular as ever--Eazy-E, Dr. Dre, and Ice Cube. Dre soon joined forces with Suge Knight to create the combustible Death Row Records, which in turn transformed Snoop Dogg and Tupac Shakur into superstars. Ben Westhoff explores how this group of artists shifted the balance of hip-hop from New York to Los Angeles. He shows how N.W.A.'s shocking success led to rivalries between members, record labels, and eventually a war between East Coast and West Coast factions. In the process, hip-hop burst into mainstream America at a time of immense social change, and became the most dominant musical movement of the last thirty years. At gangsta rap's peak, two of its biggest names--Tupac and Biggie Smalls--were murdered, leaving the surviving artists to forge peace before the genre annihilated itself. Featuring extensive investigative reporting, interviews with the principal players, and dozens of never-before-told stories, Original Gangstas is a groundbreaking addition to the history of popular music.

"Insightful...Westhoff's history is especially relevant amid the ongoing Black Lives Matter movement." -
