Haruji Mori : Osamu Tezuka: Anime Manga Character Sketchbook before purchasing it in order to gauge whether or not it would be worth my time, and all praised Osamu Tezuka: Anime Manga Character Sketchbook:

1 of 2 people found the following review helpful. 5 The book is great, good quality By Customer I consider it more of a 3.5 The book is great, good quality, it really takes you behind Tezuka's methods for defining his characters, but at only 140 pages, it feels like there could have been so much more here. Each page is a sketchbook page, it seems obvious but I didn't realize the whole book was literally a sketchbook. It isn't a bad thing at all but just so you know. If another of these books was printed and it had significantly more sketches, I'd buy it in a heartbeat.

The grandfather of manga and anime, Osamu Tezuka created hundreds of unforgettable characters during his 40+ year

career as an illustrator and animator. His influence on generations of artists has been immeasurable, and is still felt today across Japan and beyond. The *Osamu Tezuka: Anime Manga Character Sketchbook* collects rough concepts from several of Tezuka's anime and manga projects. Included are characters from *Mighty Atom* (Astroboy), *Jungle Emperor* (Kimba the White Lion), and many more.
