Her home is always (and I mean Always) filled with flowers and they were overflowing on her birthday. This is a beautiful work on God's creation of flowers - gorgeous displays of art, floral arrangements and bouquets. The paper quality is exceptional. My Christmas book to her was "Jewels of the Renaissance" which is another exceptional work of art done by the same publisher.(If I recall correctly it is Aussoline). I will continue to buy her books from this publisher for they are not only works of beauty but of interesting information. I believe this is one of the finest books I have bought for her - and I buy similar quality books for my son Klay.1 of 2 people found the following review helpful. The best!By Jeanne K. DalrympleOne of my favorite books ever and I bought extras for gifts!

Be it a single delicate bud or an explosion of colorful blossoms, the beauty of flowers has inspired artists, designers, and other creators for centuries. Design writer Sixtine Dubly chronicles the evolution of floral design in this remarkable compendium, which also features stunning work by more than forty contemporary floral artists in London, Paris, and New York, from minimalist to elaborate. This resplendent collection of gorgeous imagery blooms before the readers eyes.
